

Installing Crown Molding

There is nothing that dresses up a room like the installation of beautiful crown molding. Crown molding can come in simple one-piece design or an elaborate three-piece set. In order to help you price the project, please complete and return the work sheet below.

Philip Anderson
HDR Remodeling
Philip@honeydorepair.com

1. How many rooms will be included in the projects; _____
2. Have you chosen your crown molding; if you have not please go to Truit and White under the University Exit for Berkeley off the frontage road off 4th Street and pick a molding you like and get a sample (\$1.00) or the order number. _____
3. How big is the room or rooms so we know about how much crown molding to estimate. You can make the measurement to the nearest foot. An average bedroom is 12' x 12' _____
4. Will all the furniture be moved into the middle of the room or will we be doing it? _____
5. Would you like us to paint the molding or will others be painting the molding? _____
6. Is there any other painting in the room that you would like to bid on? _____

Thank you for inquiring about working with HDR Remodeling on your project. If we pick up and deliver the molding to the house, and move furniture all or most of it before we start work and paint the molding before it goes up (just painting the nail heads after it is installed) and install the one piece crown molding on four walls of a standard room the cost is \$1000,00 per room including painting and labor and materials. The price per room goes down dramatically the more rooms that are involved in the project.

Again thank you for your interest in working with HDR on this project.
