### Exterior Motion Detectors

---

#### **Installation, Repair or Maintenance of Motion Detectors;**

HDR will purchase and install a motion detector in the location described below. The most frequent complaint about these electrical items is that they don't do what you want. Please have your HDR service technician carefully explain how to set or adjust your motion detectors. The new ones are really quite nice and fully adjustable. If you are not home at the time of installation, we will leave you the explanation sheet. The cost of purchase and installation of the motion detector is \$124.50 if we are replacing an existing exterior light fixture. The added charge to run new electrical line is normally \$125.00.
